Mr. Trevor Baggione, P.E.
Water Quality Division Director
Arizona Department of Environmental Quality
1110 W. Washington
Phoenix, AZ 85007

Re: Triennial Review Rulemaking

Dear Mr. Baggione:

Hudbay has learned that the Arizona Department of Environmental Quality (the Department) has commenced a rulemaking process to review the surface water standards for waters in Arizona (commonly called the Triennial Review process).

In this rulemaking process, Hudbay requests that the Department undertake a review of both the rulemaking and listing process, as well as the historical water quality data underlying those rulemakings, that resulted in the listing of each of the Arizona Surface Waters classified as Outstanding Arizona Waters over the years. Hudbay encourages the Department to include in its review an evaluation of stormwater runoff contributions to intermittent and perennial waters.

Thank you for your consideration, and if you need to reach me I am available via email at Kathy.Arnold@hubbay.com or at (520) 495-3502

Regards,
